Sharing of Research Submission Form

Dear Colleague,

Following the LLN Conference we have established a research forum to enable us to share the various pieces of research that LLNs are undertaking. We have planned three national forum meetings for 2008 and details of these will be available shortly. As a starting point the small planning group drawn from nine LLNs agreed to collect details of the research that is currently underway, completed or being planned. This information will be made available to the entire LLN community via the National LLN website and form the basis for this national forum.

This is where you come in. We would be very grateful if you could complete a pro forma for each piece of research being undertaken by your LLN. Taken together, these individual pieces of research will become an impressive body of work, and form a significant part of what LLNs will deliver. Don't be worried about what constitutes research. Rest assured the work you are doing will be of interest to someone. We hope to have gathered as much information as possible by the 5th March and would be grateful if you could forward your completed pro forma to Nick Cooper (n.cooper@hull.ac.uk).

If you have nothing to register at this stage then simply let Nick know.

Thanks once again for your help.
