TITLE:

Stroud College:

• PURPOSE:

Their proposal was to develop a series of affordable, modular CPD units with mainly generic content (management, team working etc) for work-based learners which could then be customised to specific disciplines.

These materials would enable work-based learners at NVQ L3 to make the transition to L4 through a combination of self-managed learning, employer involvement and tutorial and peer support.

An additional benefit would be that learners employed in L4 positions, but without the full set of skills or qualifications to meet the job-profile, would be able to skill themselves in situ, taking the learning in 'bite-sized chunks'.
