TITLE:

Weston College:

- PURPOSE:

Their proposal was to develop material/activities which could be used cross college to promote HE - including a video, case studies and workshops in order to help vocational students gain experience of HE.

The aim of this project is to raise the profile of HE level study with groups of students where progression rates are particularly low. The development of taster workshops will play a key role in breaking down some of the barriers to further study, which often relate to confidence levels and misconceptions about degree level study.
