## 1 Introduction, Methodology and Structure

Manchester Enterprises (ME) was commissioned by the Greater Manchester Strategic Alliance (GMSA) in March 2007 to undertake an analysis of 2005/06 Learning and Skills Council (LSC) provision of Level 3 and above qualifications within Greater Manchester. This report is one of seven, each of which look at provision in one of the following LSC sector subject areas:

- Health, public services and care
- Agriculture, horticulture and the animal care
- Construction, planning and the built environment
- Information and communication technology
- Retail and commercial enterprise
- Arts, media and publishing
- Business, administration and the law

This report focuses on provision in the Construction, planning and the built environment sector subject area.

ME used Level 3+ supply data for qualifications delivered by Greater Manchester institutions obtained from the LSC's 2005/6 Individualised Learner Record. This data provides a detailed picture of LSC Level 3+ supply, allowing analysis by:

- course title;
- level of qualification;
- mode of delivery (e.g. full-time, part-time); and
- institution/provider.

It should be noted that there will be some cases of double counting within the data caused by learners undertaking more than one course (for example, when a student takes two or more AS Levels) although, due to the complexities of the qualifications framework, it is not possible to easily quantify the impact of this on individual skills outcomes. Further, the data excludes non-LSC funded Level 3+ data (such as that delivered via Greater Manchester's Higher Education Institutions). Therefore the report provides results which should be interpreted as being broadly indicative of current supply but not a precise measure of future skills outcomes.

The remainder of the report is structured as follows:

- 
- **Types of qualifications offered in Construction, planning and the built environment.** This section examines which institutions had provision in Construction, planning and the built environment in 2005/6, what type of provision this was (e.g. National Certificate, National Diploma, 'A' Level), and whether the mode of delivery is was full-time or part-time
  - **Geographical distribution of Construction, planning and the built environment provision.** This section examines the provision in terms of the number of learners, level of qualification, and institutional and geographical 'hotspots'.
  - **Level 3 Qualifications offered in Construction, planning and the built environment.** This section analyses the Level 3 supply data in some detail, looking specifically at the major qualifications/courses offered in terms of the location and the mode of delivery.
  - **Level 4+ Qualifications offered in Construction, planning and the built environment.** This final section analyses the Level 4+ supply data in some detail, looking specifically at the major qualifications/courses offered in terms of the location and the mode of delivery.

### 2.1 *Types of qualifications offered in Construction, planning and the built environment*

Figure 1 (overleaf) shows that 10 institutions in Greater Manchester offer courses at Level 3 and above in Construction, planning and the built environment. The table shows provision broken down by the number in full-time and part-time learning (if no figures are shown then the institution had no provision for that qualification in 2005/06). Numbers shown in Figure 1 will not sum to those shown in Figure 2, as Figure 1 excludes records that do not constitute a full qualification (such as NVQ/GNVQ units) and records that cannot be assigned to a specific qualification outcome (such as unspecified approved external qualification).<sup>1</sup> Numbers in Figure 1 are intended for information only as they involve a certain amount of subjective judgement. Therefore, when quoting figures, wherever possible please use numbers from Figure 2 which are taken directly from the LSC's ILR.

In terms of types of qualification offered, Manchester College of Arts and Technology (MANCAT) has by far the greatest variety of provision with courses leading to nine different qualifications. The most commonly offered qualification was a Level 3 Certificate (offered by nine providers), followed by a NVQ Level 3 (offered by eight providers).

*For example, records that have been excluded from this section include:*

- *Non-externally certificated FE other provision, Level 3, Construction, Planning and the Built Environment (SSA 5), PW C; and*
- *Unitisation (approved external qualification) Level 3, Construction, Planning and the Built Environment (SSA 5), PW A*

Definitions of the qualifications offered are as follows:

***Advanced Award:***

A new qualification that recognises the job knowledge and practical skills a person has gained during training. They are equivalent to NVQs but are actually used as a way of feeding practical experience into the process of gaining an NVQ, rather than as a separate qualification type. An advanced award is therefore equivalent to an NVQ level 3.

***City & Guilds:***

City and Guilds is a nationally recognised vocational qualification which provides the background knowledge and skills in a specific work related area. City and Guilds courses are arranged as a series of modules which can be credited individually or combined with other modules to form certificates or diplomas.

***National Award:***

A practical, work-related course, this is the lower level BTEC or equivalent qualification. Learning is conducted through completion of projects and assignments that are based on realistic workplace situations, activities and demands. It is equivalent to one 'A' level.

***National Certificate:***

A practical, work-related course, this is the mid level BTEC or equivalent qualification. Learning is conducted through completion of projects and assignments that are based on realistic workplace situations, activities and demands. It is equivalent to two 'A' levels.

***National Diploma:***

A practical, work-related course, this is the higher-level BTEC or equivalent. Learning is conducted through completion of projects and assignments that are based on realistic workplace situations, activities and demands. It is equivalent to three 'A' levels.

***NVQ Level 3:***

National Vocational Qualifications (NVQs) are work-related qualifications designed for progression to work in specific industries. There are five levels, ranging from Foundation Skills (Level 1) to Chartered, Professional and Senior Management Occupations (Level 5). The first three levels can be studied at 16, but the other two require more experience. NVQ Level 3 is equivalent to two 'A' level.

***Advanced VCE:***

Advanced Vocational Certificates of Education (Advanced VCEs) are qualifications which have the same value as GCEs (A-levels) but have a work-related emphasis and can also be taken

---

as a double award.. They have replaced Advanced GNVQs (General National Vocational Qualifications) that were offered from 1992-1999.

***Certificate (Level 3):***

A vocational qualification equivalent to NVQ level 3.

***Certificate (Level 4+):***

A vocational qualification equivalent to NVQ level 4 and above.

***Diploma (Level 4+):***

A high-level vocational qualification designed for those already working at a senior level within the subject field.

***HNC:***

Higher National Certificates (HNCs) normally take two years to complete and are the equivalent to the first year of a bachelor's degree. They are offered in many subject areas and are normally vocationally related.

***HND:***

Higher National Diplomas (HNDs) take two years to complete and are equivalent to the first two years of a bachelor degree. HND courses are more vocational than degree courses and often contain more practical work than theory. The entry requirements are different to degrees, normally requiring one A level or its equivalent.

## 2.2 Geographical distribution of Construction, planning and the built environment provision

Figure 2 (below) shows learner numbers by institution, the level of qualification undertaken and the mode of study. There were a total number of 2,290 courses delivered at Level 3 and above in Greater Manchester in 2005/6, of which 86% (1,989) were at Level 3. The largest providers in terms of number of learners were Salford College (30% or 695), followed by MANCAT (19% or 425), and North Trafford College of Further Education (17% or 389); these three providers accounted for two-thirds of all provision. Other large providers included Wigan And Leigh College (7% or 171), The Oldham College (7% or 158), Stockport College (6% or 143) and Bolton Sixth Form College (6% or 137).

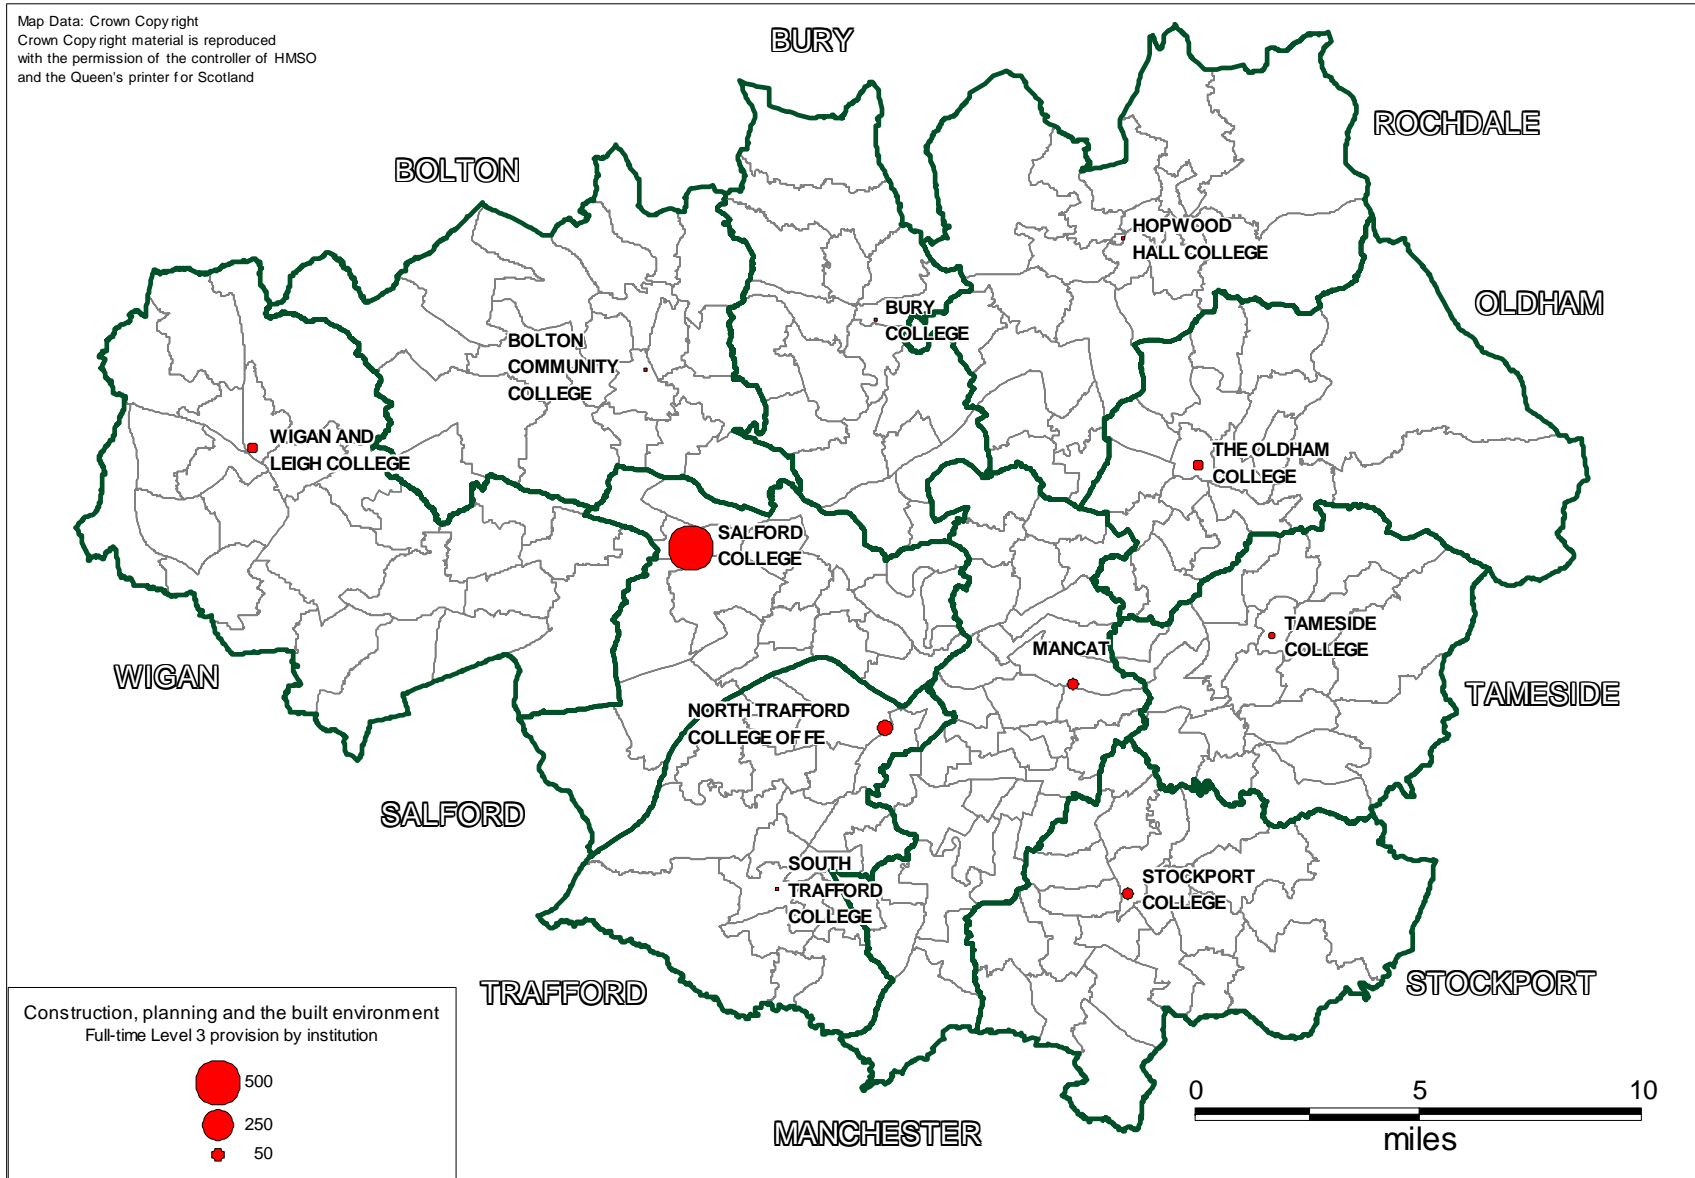

The overwhelming majority (88% or 265 learners) of provision at Level 4, 5 or higher was delivered by MANCAT. North Trafford College of Further Education was the next largest provider of Level 4, 5 or higher qualifications (8% or 24 learners) followed by Bolton Sixth Form College (2% or 6 learners) and Wigan and Leigh College (1% or 6 learners).

The four maps overleaf show the geographical spread of provision as described in Figure 2. Map 1 shows that the distribution of full-time Level 3 provision across Greater Manchester is concentrated in Salford College. Map 2 shows that part-time Level 3 provision is fairly evenly distributed across colleges and local authority districts in the sub-region. Map 3 shows that there is very little full-time Level 4 provision but what is delivered is concentrated in MANCAT. Finally, Map 4 shows that part-time Level 4 provision is also concentrated in MANCAT.

### 2.3 Level 3 Qualifications offered in Construction, planning and the built environment

Figure 3 provides a breakdown of the mode of study for Level 3 qualifications in Construction, planning and the built environment delivered in Greater Manchester in 2005/6. The most common mode of delivery was other part-time (including e-learning) which accounted for 45% of all provision (892 learners), followed by full-time for part of a year (25% or 496 learners), part-time evening (17% or 339), full-time for a full year (13% or 250), and part-time distance learning (1% or 12).

Figure 3 Level 3 Construction, planning and the built environment provision by mode of study (number of courses shown in brackets)

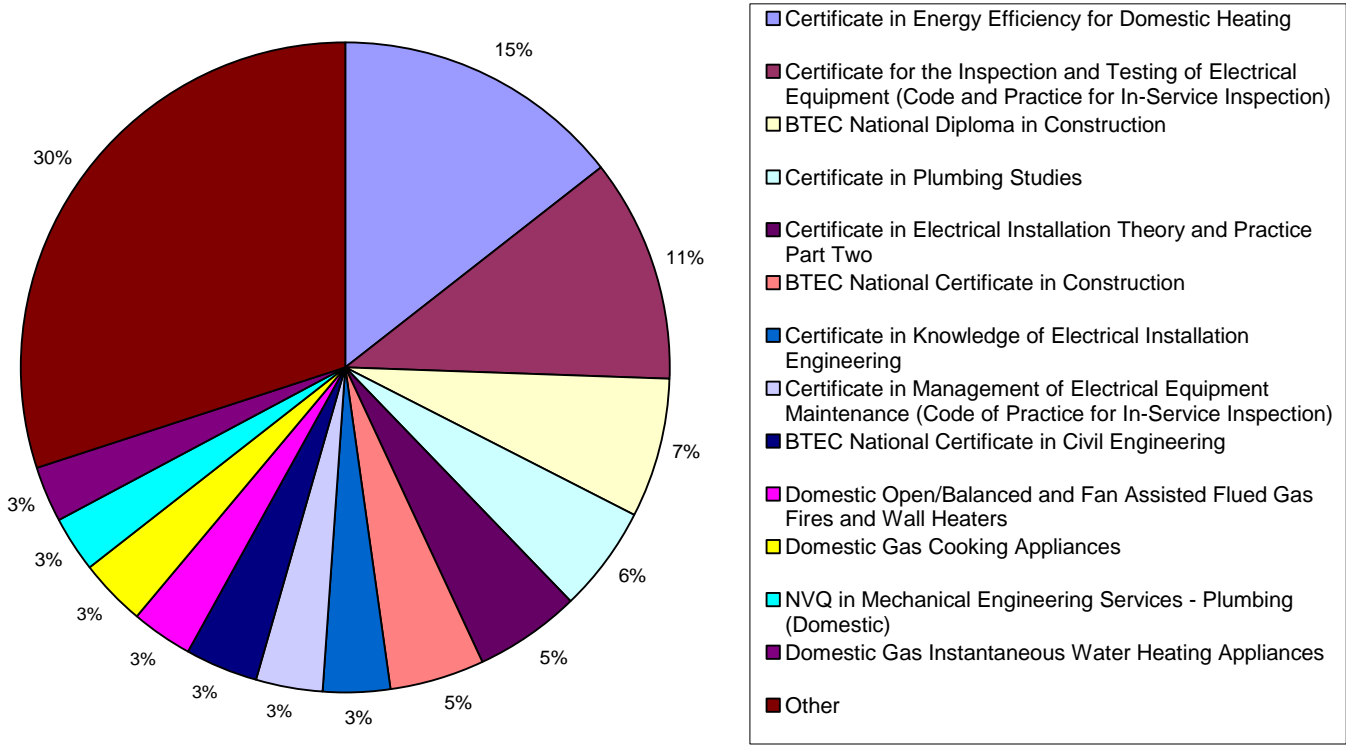

A total of 48 different courses and qualifications were offered in Construction, planning and the built environment in 2005/6 at Level 3 (see Annex 3 for a full list). Figure 4 shows the qualifications with the largest provision at Level 3 in Greater Manchester. These were:

- Certificate in Energy Efficiency for Domestic Heating (289 learners);
- Certificate for the Inspection and Testing of Electrical Equipment (Code and Practice for In-Service Inspection) (220 learners);
- Certificate in Plumbing Studies (110 learners); and
- Certificate in Electrical Installation Theory and Practice Part Two (101 learners).

In addition, a significant proportion of delivery at Level 3 in this sector subject area (30% or 596 learners) was spread amongst 35 courses with fewer than 50 participants (shown as 'other' in Figure 4).

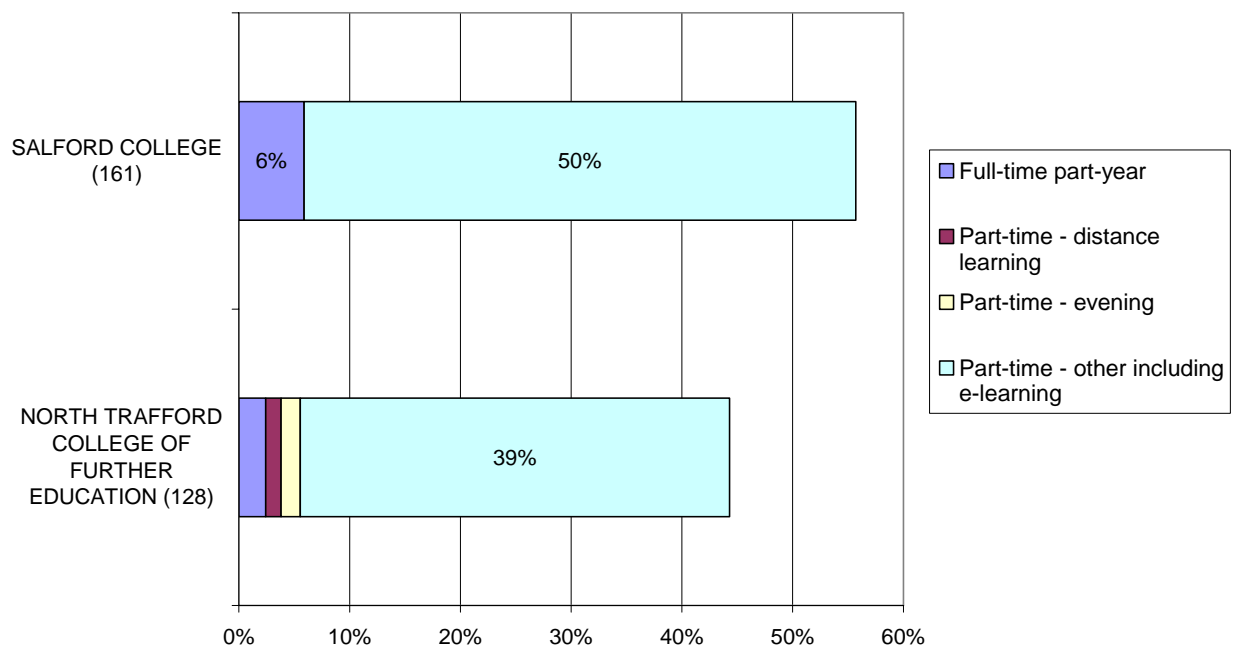

Figure 4 Key Level 3 qualifications as a proportion of total Construction, planning and the built environment Level 3 provision

**Certificate in Energy Efficiency for Domestic Heating** was the course with the highest level of provision in Construction, planning and the built environment at Level 3. Figure 5 shows that:

- It was delivered solely by two institutions: Salford College (56% or 161 learners) and North Trafford College of Further Education (44% or 128 learners).
- It was primarily delivered as other part time (including e-learning) – 88% of learners (256 people) studied this way – although one in ten (9% or 24 learners) undertook the course full time for part of a year.

Figure 5 Certificate in Energy Efficiency for Domestic Heating by institution and mode of delivery

**Certificate for the Inspection and Testing of Electrical Equipment (Code and Practice for In-Service Inspection)** has the next highest level of delivery at Level 3 in this sector subject area. Figure 6 shows that:

- It was delivered across six institutions: Salford College (35% or 78 learners), North Trafford College of Further Education (30% or 67), Tameside College (17% or 38 learners), Manchester College of Arts And Technology (10% or 21 learners), Hopwood Hall College (7% or 15 learners), and Bury College (1 learner).
- This course was delivered in a variety of different ways. The most common modes of study were full time for part of a year (37% or 82 learners) and other part-time (including e-learning) (30% or 65 learners).

Figure 6 Certificate for the Inspection and Testing of Electrical Equipment (Code and Practice for In-Service Inspection) provision by institution and mode of delivery

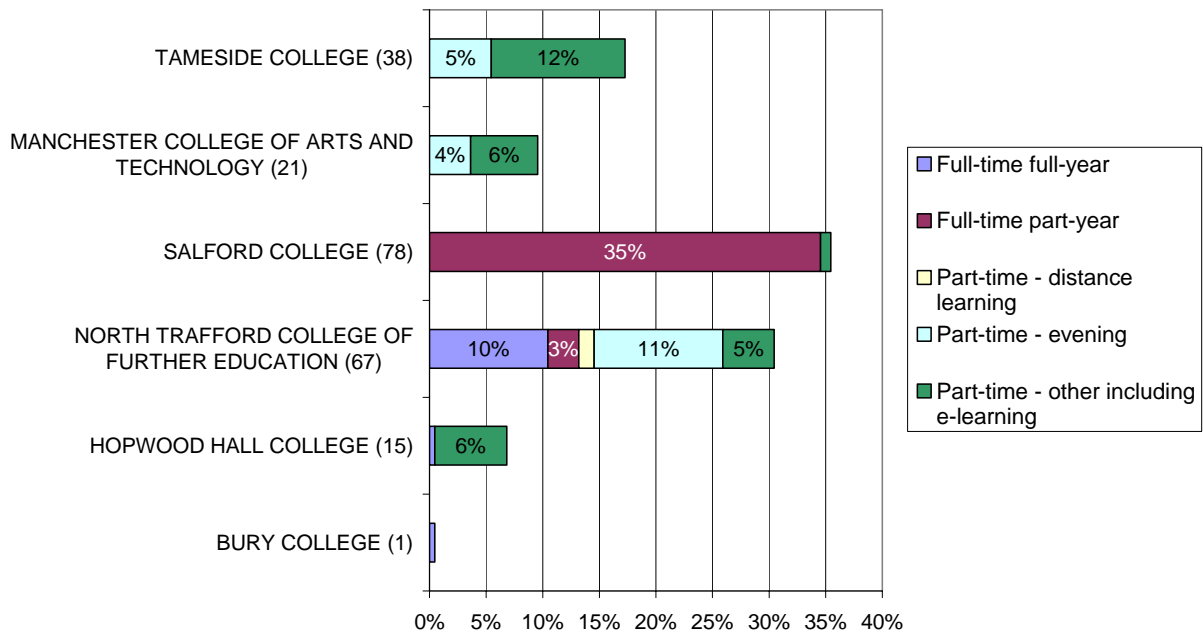

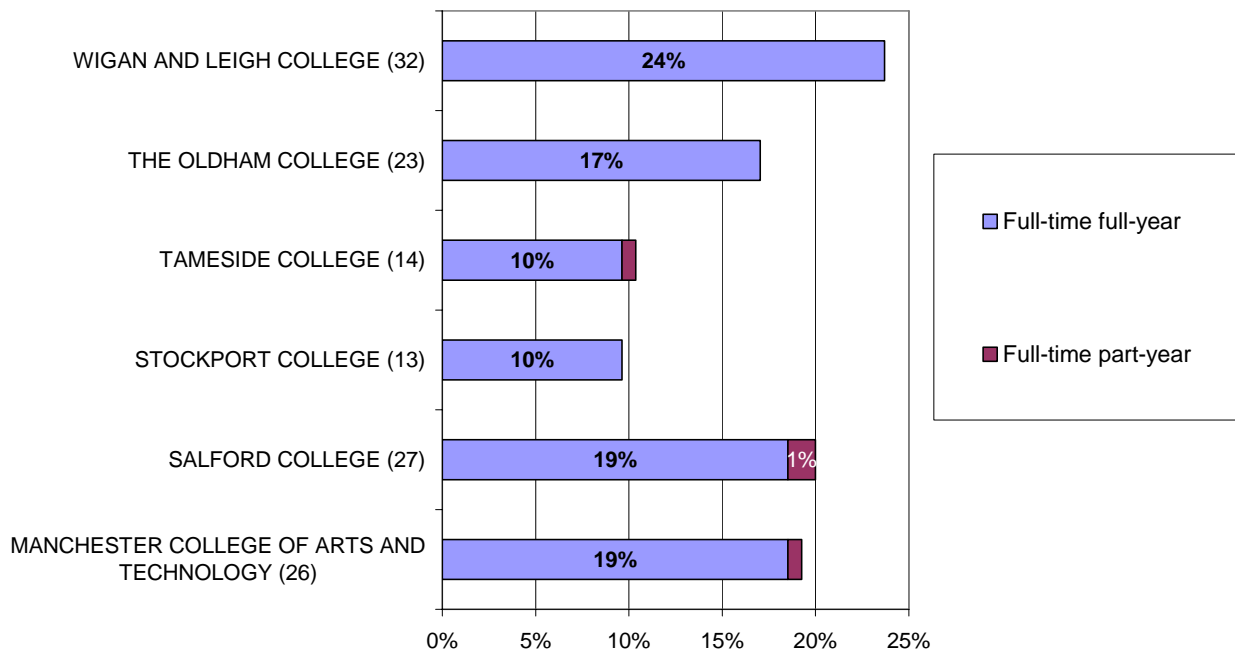

Figure 7 shows that **BTEC National Diploma in Construction** was:

- Delivered across six institutions: Wigan and Leigh College (24% or 32 learners), Salford College (20% or 27 learners), MANCAT (19% or 26 learners), The Oldham College (17% or 23 learners), Tameside College (10% or 14 learners), and Stockport College (10% or 13 learners).
- Almost all (97% or 131 learners) studied this course full time for a full year; the remaining four learners (3%) studied full time for part of a year.

## 2.4 Level 4+ Qualifications offered in Construction, planning and the built environment

Figure 8 provides a breakdown of the mode of study for Level 4 and above qualifications in Construction, planning and the built environment delivered in Greater Manchester in 2005/6. In contrast to Level 3 provision, the most common mode of delivery was part-time distance learning (85% or 256) followed by part-time evening (11% or 33).

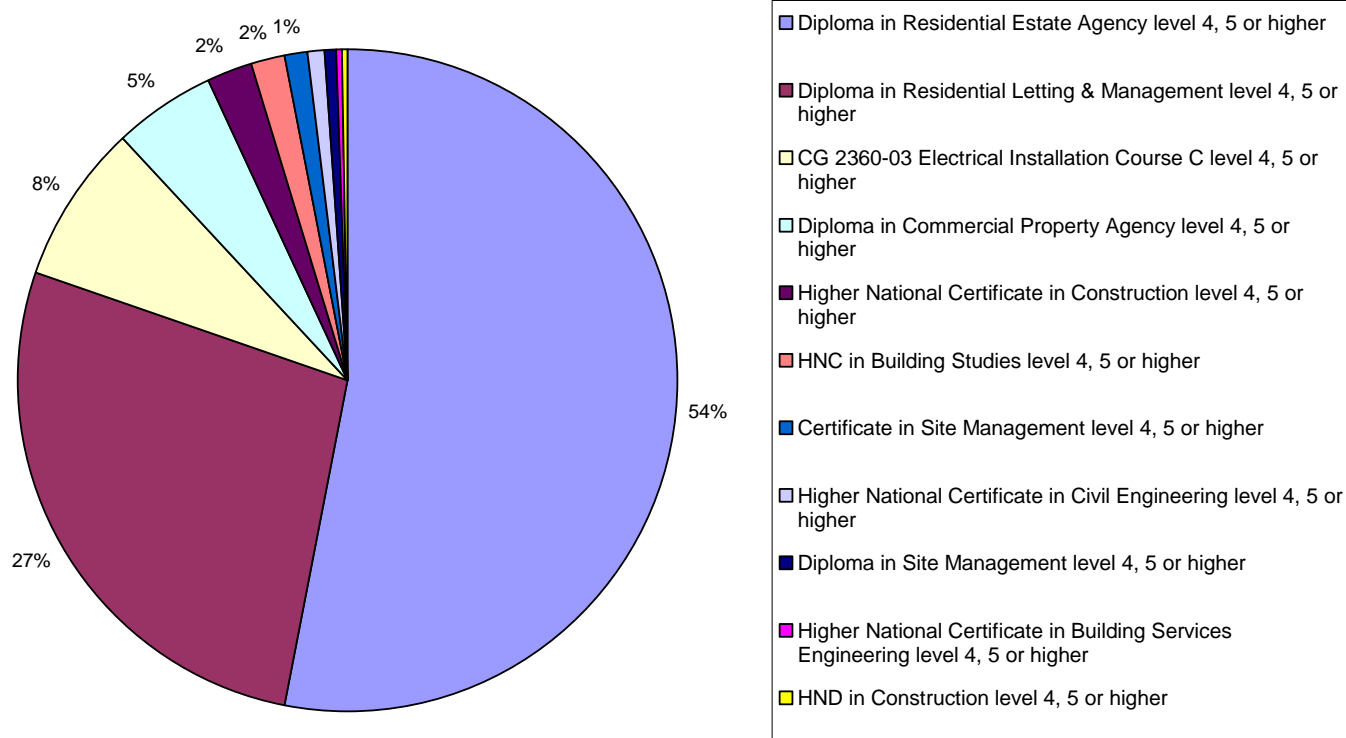

Figure 8 Level 4 Construction, planning and the built environment provision by mode of study (number of courses shown in brackets)

A total of 11 different courses and qualifications were offered in Construction, planning and the built environment in 2005/6 at Level 4+ (see Annex 3 for a full list). Figure 9 shows the courses at Level 4 and above with the most provision in Greater Manchester. These were:

- Diploma in Residential Estate Agency (160);
- Diploma in Residential Letting & Management (82);
- CG 2360-03 Electrical Installation Course C (23); and
- Diploma in Commercial Property Agency (15).

**Diploma in Residential Estate Agency** was the qualification with most provision at Level 4 and above in Greater Manchester in 2005/6. Figure 10 shows that this course was:

- Delivered solely by MANCAT (160 learners).
- Almost all (99% or 159 learners) studied through part-time distance learning; one learner studied this course full-time for part of a year.

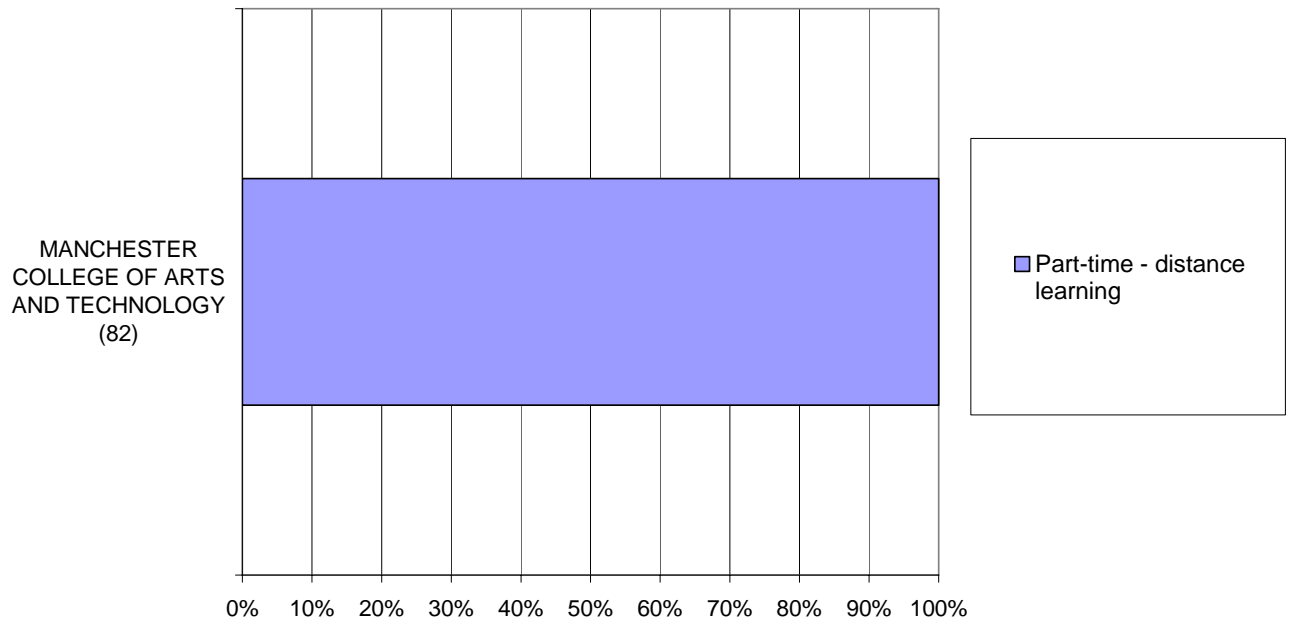

Figure 10 Diploma in Residential Estate Agency by provider and mode of delivery

**Diploma in Residential Letting & Management** has the next highest level of delivery at Level 3 in this sector subject area. Figure 5 shows that:

- It was delivered solely at MANCAT through part-time distance learning.
