1 Introduction, Methodology and Structure

Manchester Enterprises (ME) was commissioned by the Greater Manchester Strategic Alliance (GMSA) in March 2007 to undertake an analysis of 2005/06 Learning and Skills Council (LSC) provision of Level 3 and above qualifications within Greater Manchester. This report is one of seven, each of which look at provision in one of the following LSC sector subject areas:

- Health, public services and care
- Agriculture, horticulture and the animal care
- Construction, planning and the built environment
- Information and communication technology
- Retail and commercial enterprise
- Arts, media and publishing
- Business, administration and the law

This report focuses on provision in the Information and Communication technology sector subject area.

ME used Level 3+ supply data for qualifications delivered by Greater Manchester institutions obtained from the LSC's 2005/6 Individualised Learner Record. This data provides a detailed picture of LSC Level 3+ supply, allowing analysis by:

- course title;
- level of qualification;
- mode of delivery (e.g. full-time, part-time); and
- institution/provider.

It should be noted that there will be some cases of double counting within the data caused by learners undertaking more than one course (for example, when a student takes two or more AS Levels) although, due to the complexities of the qualifications framework, it is not possible to easily quantify the impact of this on individual skills outcomes. Further, the data excludes non-LSC funded Level 3+ data (such as that delivered via Greater Manchester's Higher Education Institutions). Therefore the report provides results which should be interpreted as being broadly indicative of current supply but not a precise measure of future skills outcomes.

The remainder of the report is structured as follows:

-
- **Types of qualifications offered in Information and Communication Technology.**
This section examines which institutions had provision in Information and Communication Technology in 2005/6, what type of provision this was (e.g. National Certificate, National Diploma, 'A' Level), and whether the mode of delivery was full-time or part-time
 - **Geographical distribution of Information and Communication Technology provision.** This section examines the provision in terms of the number of learners, level of qualification, and institutional and geographical 'hotspots'.
 - **Level 3 Qualifications offered in Information and Communication Technology.** This section analyses the Level 3 supply data in some detail, looking specifically at the major qualifications/courses offered in terms of the location and the mode of delivery.
 - **Level 4+ Qualifications offered in Information and Communication Technology.**
This final section analyses the Level 4+ supply data in some detail, looking specifically at the major qualifications/courses offered in terms of the location and the mode of delivery.

2.1 Types of qualifications offered in Information and Communication Technology.

Figure 1 (overleaf) shows that 29 institutions in Greater Manchester offer courses at Level 3 and above in Information and Communication Technology. The table shows provision broken down by the number in full-time and part-time learning (if no figures are shown then the institution had no provision for that qualification in 2005/06). Numbers shown in Figure 1 will not sum to those shown in Figure 2, as Figure 1 excludes records that do not constitute a full qualification (such as NVQ/GNVQ units) and records that cannot be assigned to a specific qualification outcome (such as unspecified approved external qualification).¹ Numbers in Figure 1 are intended for information only as they involve a certain amount of subjective judgement. Therefore, when quoting figures, wherever possible please use numbers from Figure 2 which are taken directly from the LSC's ILR.

In terms of types of qualification offered, Manchester College of Arts and Technology (MANCAT) had the greatest variety of provision, offering courses which led to 10 different potential outcomes. The most common type of qualification was an 'A' Level (at AS level, A2 level or both) which was offered by 20 institutions, followed an Advanced VCE (offered by 19 institutions) and a National Diploma (13 institutions). MANCAT was the only institution to offer a foundation degree in this subject area.

¹

For example, records that have been excluded from this section include:

- *Unitisation (approved external qualification) Level 3, Information and Communication Technology (SSA 6), PW B; and*
- *Credit Achievement Code (OCN) Level 3, PW B, Information and Communication Technology (SSA 6)*

Definitions of the qualifications offered are as follows:

Access Course:

The main aim of Access programmes is to prepare adult learners from non-traditional backgrounds and under-represented groups for admission to undergraduate education. Most access courses last between six months and a year.

City & Guilds:

City and Guilds is a nationally recognised vocational qualification which provides the background knowledge and skills in a specific work related area. City and Guilds courses are arranged as a series of modules which can be credited individually or combined with other modules to form certificates or diplomas.

ECDL:

The European Computer Driving Licence (or ECDL) is a pan-European qualification that demonstrates competence in essential computer skills & knowledge. The ECDL qualification comprises two parts, which are recognised qualifications in their own right. These are known as the BCS Level 1 Certificate for IT Users and the BCS Level 2 Certificate for IT Users. The units of these two qualifications relate directly to the 7 modules that make up the European Computer Driving Licence (ECDL). The level 3 qualification advances these skills and is known as the Advanced ECDL.

National Award:

A practical, work-related course, this is the lower level BTEC or equivalent qualification. Learning is conducted through completion of projects and assignments that are based on realistic workplace situations, activities and demands. It is equivalent to one 'A' level.

National Diploma:

A practical, work-related course, this is the higher-level BTEC or equivalent. Learning is conducted through completion of projects and assignments that are based on realistic workplace situations, activities and demands. It is equivalent to three 'A' levels.

National Certificate:

A practical, work-related course, this is the mid level BTEC or equivalent qualification. Learning is conducted through completion of projects and assignments that are based on realistic workplace situations, activities and demands. It is equivalent to two 'A' levels.

A Level:

Advanced Subsidiary/Advanced Level (AS Level/'A' Level) certificates are offered in a wide variety of subjects, some of which are more vocational in nature. A full 'A' level is made up of

six units: three AS units in the first year and a further three units called A2 in the second year. Most students take three or four AS subjects in the first year and carry three on as A2 subjects in the second year to gain full 'A' levels.

NVQ Level 3:

National Vocational Qualifications (NVQs) are work-related qualifications designed for progression to work in specific industries. There are five levels, ranging from Foundation Skills (Level 1) to Chartered, Professional and Senior Management Occupations (Level 5). The first three levels can be studied at 16, but the other two require more experience. NVQ Level 3 is equivalent to two 'A' levels.

Advanced VCE:

Advanced Vocational Certificates of Education (Advanced VCEs) are qualifications which have the same value as GCEs (A-levels) but have a work-related emphasis and can also be taken as a double award.. They have replaced Advanced GNVQs (General National Vocational Qualifications) that were offered from 1992-1999.

Advanced Diploma:

An advanced diploma is equivalent to a HND and counts towards the first two years of a Bachelors degree, or 240 credits.

Certificate (Level 3):

A vocational qualification equivalent to NVQ level 3.

Certificate (Level 4+):

A vocational qualification equivalent to NVQ level 4 and above.

HNC:

Higher National Certificates (HNCs) normally take two years to complete and are the equivalent to the first year of a bachelor's degree. They are offered in many subject areas and are normally vocationally related.

HND:

Higher National Diplomas (HNDs) take two years to complete and are equivalent to the first two years of a bachelor's degree. HND courses are more vocational than degree courses and often contain more practical work than theory. The entry requirements are different to degrees, normally requiring one A level or its equivalent.

Foundation Degree:

The foundation degree is a new vocational qualification geared to providing students with higher level skills suited to the needs of employers, and its roots lie in the BTEC higher national. Often it combines the level of academic achievement in a normal degree with specific business, specialist and technical skills needed in the workplace. In some cases, it provides the opportunity for adults with work experience, knowledge and skills to progress to higher education with no formal qualifications.

2.2 Geographical distribution of Information and Communication Technology provision

Figure 2 (below) shows learner numbers by institution, the level of qualification undertaken and the mode of study. There were a total number of 6,673 courses delivered at Level 3 and above in Greater Manchester in 2005/6[,] of which almost all (99% or 6,629) were at Level 3. The largest providers in terms of number of learners was MANCAT (655), followed by Oldham Sixth Form College (470), Bury College (443) and Cheadle and Marple Sixth Form College (426). Twelve other colleges had between 200 and 400 learners in this subject area, showing its importance to the sub-region.

Three-quarters of provision at Level 4, 5 or higher (75% or 33 learners) was delivered by MANCAT; the remainder was delivered by North Trafford College of Further Education (8 learners), Wigan and Leigh College (2 learners) and Hopwood Hall College (1 learner).

The four maps overleaf show the geographical spread of provision as described in Figure 2. Map 1 shows that the distribution of full-time Level 3 provision across Greater Manchester is spread widely across the sub-region. Map 2 shows that part-time Level 3 provision is also fairly evenly distributed across colleges and local authority districts in the sub-region. Map 3 shows that there is very little full-time Level 4+ provision, but what is delivered is concentrated in MANCAT. Finally, Map 4 shows that part-time Level 4+ provision is also concentrated in MANCAT.

2.3 Level 3 Qualifications offered in Information and Communication Technology

Figure 3 provides a breakdown of the mode of study for Level 3 qualifications in Information and Communication Technology delivered in Greater Manchester in 2005/6. The most common mode of delivery was full-time for a full year which accounted for 79% of all provision (5,245 learners), followed by part-time evening (10% or 664 learners), other part-time (including e-learning, open and distance learning) (8% or 498 learners), and full-time for part of a year (2% or 141 learners).

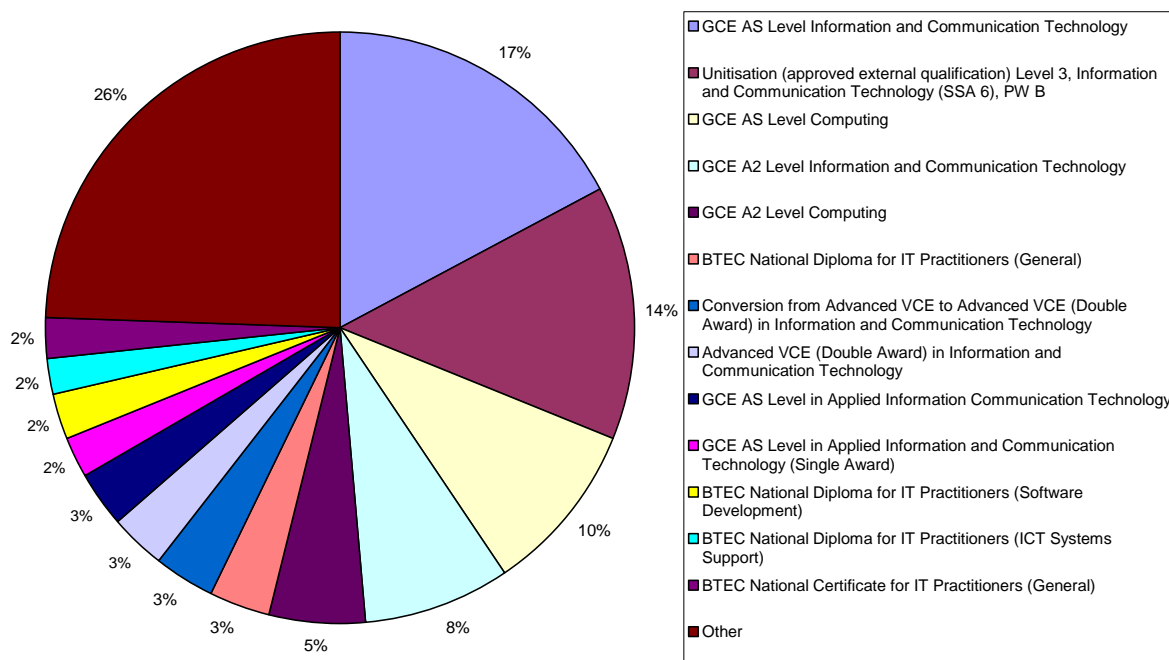

Figure 3: Level 3 Information and Communication Technology provision by mode of study

A total of 52 different courses and qualifications were offered in Information and Communication Technology at Level 3 in 2005/6 (see Annex 3 for a full list). Figure 4 shows the qualifications with the largest Level 3 provision in Greater Manchester. These were:

- GCE AS Level Information and Communication Technology (1,133 learners);
- Unitisation (approved external qualification) Level 3, Information and Communication Technology (SSA 6), PW B (919 learners);
- GCE AS Level Computing (631 learners);
- GCE A2 Level Information and Communication Technology (538 learners);
- GCE A2 Level Computing (351 learners); and
- BTEC National Diploma for IT Practitioners (General) (221).

Figure 4 Key Level 3 qualifications as a proportion of total Information and Communication Level 3 provision

GCE AS Level Information and Communication Technology was the course with the highest level of provision in Greater Manchester. Detailed analysis of the data in Annex 2 shows that:

- It was delivered by 18 colleges.
- There were particular concentrations of delivery in Ashton-Under-Lyne Sixth Form College (153 learners), Loreto Sixth Form College (103 learners), Holy Cross College (97 learners) and Oldham Sixth Form College (90 learners).
- It was almost exclusively delivered as full-time for a full year – 99% of learners (1,125 people) studied this way; just 8 people undertook the course on a other part-time (including e-learning) basis.

Unitisation (approved external qualification) Level 3, Information and Communication Technology (SSA 6), PW B had the next highest level of delivery:

- It was delivered by 14 providers.
- Half (51%) of this fell into just two colleges: MANCAT (35% or 321 learners) and Wigan and Leigh College (16% or 147 learners).
- Other large providers were City College Manchester (10% or 96 learners), South Trafford College (10% or 88 learners), North Trafford College of Further Education (9% or 82 learners) and The Oldham College (8% or 75 learners).
- This course was delivered in a variety of different ways; the most common modes of study were part-time evening (54% or 492 learners), other part-time (including e-learning) (23% or 214 learners), and full-time for part of a year (13% or 120 learners).

GCE AS Level Computing had the third highest level of delivery. Analysis shows that:

- It was delivered by 14 colleges.
- There were concentrations of provision at Aquinas College (15% or 95 learners), Holy Cross College (13% or 81 learners), and Winstanley College (10% or 63 learners).
- Almost all (99.8% or 630 learners) studied this course full-time for a full year; one learner studied this course through other part-time means (including e-learning).

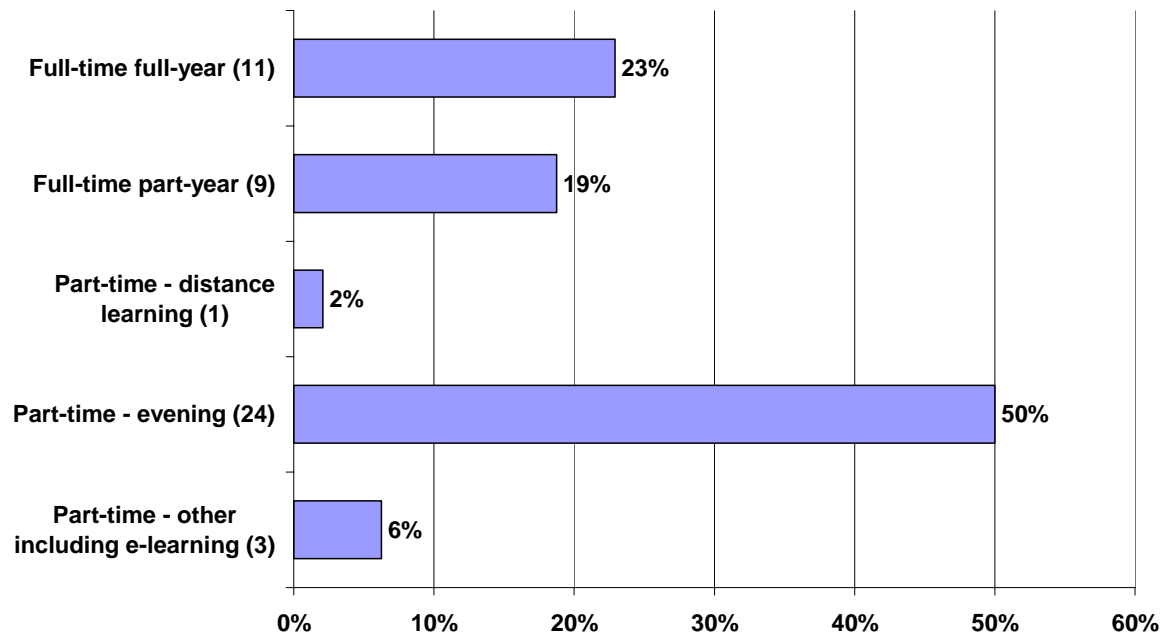

GCE A2 Level Information and Communication Technology was

- Delivered by 18 colleges.
- Provision was quite evenly spread across these institutions but there were particular concentrations at Ashton-Under-Lyne Sixth Form College (13% or 68 learners), Holy Cross College (11% or 57 learners), Winstanley College (10% or 55 learners), and Loreto Sixth Form College (10% or 54 learners).
- Again, almost all (99.8% or 537 learners) studied this course full-time for a full year; one learner studied this course through other part-time means (including e-learning).

2.4 Level 4+ Qualifications offered in Information and Communication Technology

Figure 5 provides a breakdown of the mode of study for Level 4 and above qualifications in Information and Communication Technology delivered in Greater Manchester in 2005/6. The most common mode of delivery was part-time distance learning (50% or 24) followed by full-time for a full year (11% or 33) and full-time for a part-year (19% or 9).

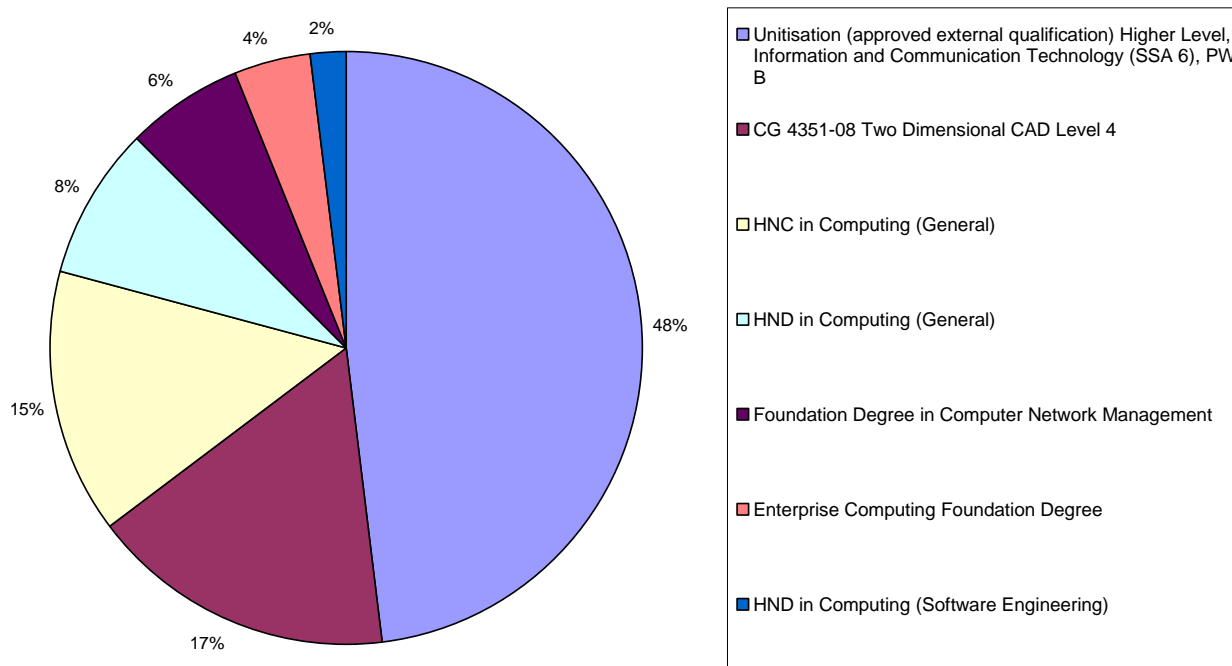

Figure 5 Level 4+ Information and Communication Technology provision by mode of study

A total of 7 different courses and qualifications were offered in Information and Communication Technology in 2005/6 at Level 4+ (see Annex 3 for a full list). Figure 9 shows the courses at Level 4 and above delivered in Greater Manchester. Those with the most provision were:

- Unitisation (approved external qualification) Higher Level, Information and Communication Technology (SSA 6), PW B (23 learners)
- City & Guilds 4351-08 Two Dimensional CAD Level 4 (8 learners)
- HNC IN Computing (General) (7 learners)
- HND in Computing (General) (4 learners)

Figure 6 Key Level 4 qualifications as a proportion of total Information and Communication Technology Level 4 provision

Unitisation (approved external qualification) Higher Level, Information and Communication Technology (SSA 6), PW B was the qualification with most provision at Level 4 and above in Greater Manchester in 2005/6. Analysis of the data in Annex 3 shows that this course was:

- Solely delivered by MANCAT.
- Predominantly delivered part-time in the evening (65% or 15 learners) with the remaining delivery being full-time for part of a year (6 learners) and full-time for a full year (2 learners).

City & Guilds 4351-08 Two Dimensional CAD Level 4 was the next most commonly delivered course. Analysis shows that the course was:

- Delivered by two institutions: Manchester College Of Arts And Technology (5 learners) and North Trafford College Of Further Education (3 learners)
- Was delivered by several different modes: full-time for part of a year (3 learners), part-time in the evening (3 learners), and other part-time including e-learning (2 learners).
